

2017-18

Prospective Soccer Players

Ballou is looking forward to another great soccer season. As safety is a major importance to us we have decided to move our soccer practice and game fields to Rogers and Heritage. As you may have seen, our field has been invaded by moles. This has created a field full of mounds and holes. The field has become unsafe for play. This upcoming summer the Puyallup School District will be working on our field to alleviate the problem.

The first day of tryouts will be at Ballou. All other practices and home games will be either at the Rogers turf field or Heritage. January 30th-Feb. 23rd all soccer activities will take place on Rogers turf field. February 26-March 19 Ballou's soccer will be at Heritage.

Soccer players will run/walk together as a team with a coach after school over to Rogers/ Heritage. After practice, players will be picked up by a district bus from Rogers back to Ballou at 4:15 so they will be able to ride our activity bus. All players will be riding the bus back to Ballou. Players who get picked up from practice will need to do so at Ballou after practices.

We know this situation isn't ideal, but we are looking forward to a Fun and Competitive Season. If you have any questions please don't hesitate to e-mail or call me.

Looking forward to seeing the girls on the field.
